Airproducts: Chemical Operations Learnerships 2025 Apply Online

Description

Air Products South Africa is excited to offer passionate individuals the opportunity to participate in our Chemical Operations Learnership Program. This program aims to provide participants with practical knowledge and skills in chemical production processes, safety procedures, and plant operations within our dynamic industry.

Responsibilities

- Engage in theoretical learning sessions covering chemical processes, equipment operations, and safety protocols.
- Gain practical experience in chemical plant operations under the guidance of experienced professionals.
- Adhere to strict safety standards and protocols while learning various aspects of chemical production.
- Collaborate with team members to ensure smooth operations and adherence to quality standards.

Qualifications

- Minimum educational requirement: Matric/Grade 12 certificate with Mathematics and Physical Science.
- Passion for the chemical industry and a keen interest in pursuing a career in chemical operations.
- Excellent communication and teamwork skills.
- Strong attention to detail and commitment to following safety protocols.
- South African citizenship.

Job Benefits

- Acquire hands-on experience and accredited training in chemical operations.
- Monthly stipend provided for the duration of the learnership.
- Opportunity for personal and professional growth within the industrial gases industry.
- Exposure to various aspects of chemical production processes and plant operations.
